KARNATAKA / 2 DAYS

Kalasa Trail and Waterfall Weekend

A weekend near Kalasa built around the Kudremukh trek and a slower visit to Soormane Falls.

DAY 1

Kudremukh trek

Early morning

Get to the trailhead

Arrange the approach via Samse and confirm your required permits, check-in time and local transport before travel.

Full day

Trek the Kudremukh ridge

The TravAmogh group recorded about eight hours on the trail including the summit stop. Use that as a firsthand reference and plan for your own pace and conditions.

DAY 2

Soormane Falls

Morning

Ride out from Kalasa

Amogh recorded about 20 minutes by auto from Kalasa to the entrance on his trip. Arrange return transport and confirm local access before leaving.

Read the TravAmogh story

Afternoon

Return to Kalasa

Keep the return flexible. High water and slippery rock can make the waterfall approach unsuitable.

Before you go

- Check trek permits and current route availability before booking transport.
- Pack for rain and keep a buffer for both trail and road travel.
